Find a call for research proposals (a solicitation) in an area related to Computer Science on the Internet. Write a one-page summary of how you would propose to address the research requirements. Include the following:

1. The name of the agency or organization
2. The title of the solicitation
3. The evaluation criteria: on what basis will the reviewers evaluate the proposal?
4. A ½ page abstract on how you would propose solve the problem.

Turn in hard copy in class on Sep 8.
